Decode Global

Introductions

Decode your possibilities

Abstract

Decode Global is a top tier financial services company with over 18 years of experience. The group has over five hundred thousand clients globally and holds a variety of financial licences enabling it to offer a plethora of services. These include margin foreign exchange, stocks, commodities, metals, cryptocurrency and financial derivatives as well as having a comprehensive fund and asset management business.

Decode has been monitoring the crypto market and technology very closely over the last few years. With the continually increasing market cap of cryptocurrency world wide, Decode Global is facing the dramatic new competitions from the cryptocurrency investments and services companies, such as Binance, Huobi, etc.

To be adaptive to the more and more rapid market changes, and the cater the increasing needs in Cryptocurrency investment of the existing and new customers, Decode Global has started the journey to transform our entire business into the Decode Economy, focussing on the four pillars of our business, People, Product, Finance and Technology. This will enable us to become much more dynamic in the way we interact with our clients and offer our services across the group.

The cornerstone of our offering will be Decode Coin, DECODE. All trading transactions, service fee's, referrer fees and transfer, as well as services from Decode's integrated partners will have the option of using Decode coin for payments and realising profits.

By leveraging the Decode Economy, and Decode coin, the company will be able to provide a more dynamic and innovative product suite and service offering. This will enable our customers, partners, introducing brokers and agencies to push their businesses to higher levels as well as assist Decode's management, sales and marketing teams to work more efficiently and maximise investment returns for the group.

Welcome to join us in this journey to Decode your possibilities and Decode your financial capabilities.
